

Introducing the most comprehensive COVID solution available on the market today.

on/go™

TAP. SWAB. SNAP.

Only the fastest, most advanced test is good enough to be called On/Go.

We know that COVID will be with us for some time. Managing life with it requires vigilance, science, and technology, all of which are provided by our unique app.

Made in the USA

❖ Intrivo

The Test

On/Go isn't simply an FDA authorized rapid antigen test, it's an easy to use, complete diagnostic and management system that operates directly with your phone. Here are the reasons both individuals and institutions will want to choose On/Go instead of the rest.

- FDA/EUA authorized for over-the-counter use
- 95% accurate
- Test results at 10 minutes
- Detects ALL known COVID-19 variants of concern, including Delta
- Suitable for individuals with or without symptoms
- Lower nasal swab specimen collection increases patient comfort
- Proudly developed and manufactured in the US
- Companion app available in both Apple App Store and Google Play

The App

The On/Go mobile app is great for individuals and enterprise users alike - offering each important tools, all while helping ensure the most accurate, fastest, and best experience possible.

- Step-by-step test instructions
- Test results
- QR codes for health results sharing

There's not a
single good
reason to
use On/Go.

There are 5.

- 1 Only On/Go combines the latest science with cutting edge technology to provide best-in-class diagnostics with information management for an end-to-end solution no one else can offer.
- 2 All products are manufactured in the US, so you can trust their quality, and the safety of your information.
- 3 We provide a unique, user-friendly app to guide you through testing, and manage results. No more confusion around testing or fumbling through clunky websites, just accurate results fast.
- 4 For enterprises managing a team of people, we offer a full stack population management platform. From testing to tracing, information is tracked in our secure cloud-based hub. We make your business safer for you, your employees, and your customers.
- 5 On/Go is a strong consumer brand, with extensive marketing support, so when people are asking for the best, they'll be asking by name.

Made in the USA

✱ Intrivo

on/go™

USA Today & the ECRI agrees, On/Go is #1!

On/Go COVID-19 rapid self-test ranked No. 1 among seven leading tests by an independent patient safety group for ease of use, simplicity and quality of digital technology. The independent nonprofit highlighted the company's On/Go mobile app and its included timers as a useful differentiator, noting that the app is easy to use and allows users to skip ahead if they already know how to perform a particular step.

Our team of top engineers, designers and data specialists worked around the clock to craft a testing solution that combines cutting-edge technology with a top-tier user experience to help make a stressful situation easier.

Introducing On/Go One, the next frontier of testing!

On/Go One COVID-19 Antigen Home test
is your portable, convenient ticket to freedom

- 98% accuracy*
- Test results in 15 minutes
- Detects all major known COVID-19 variants of concern
- Suitable for individuals with or without symptoms
- FDA EUA authorized for over-the-counter use
- Top-rated companion mobile app available in both Apple App Store and Google Play

On/Go One offers clear advantages over existing rapid tests, including just one test needed to detect COVID status, a convenient form factor, a 12-month shelf life and market-leading technology. With its increased accuracy, users can take just one test and have the confidence to go about their day. The sleek testing kit is smaller than a smartphone, making it easy to stash in a purse, gym bag or glove compartment so testing is easy no matter where you are.

Anywhere you go, you gotta have One.
